Moorpark. Many people consider this apricot the most delicious of all. Fruits are extra large in size. Ripens in July.

HOW TO PLAN YOUR FAMILY ORCHARD

1. Lay out the position of the trees on a scale drawing of your lot. Spacing should be 18 to 25 feet for fruit trees; 35 to 50 feet for walnuts. Allow 15 feet between tree and property line.
2. Select varieties according to time of ripening so that crops will bear at intervals throughout the season. Write names in plot plan.
3. Order early to avoid disappointment.
